Dear Jerry:

Please pardon my delay in answering your letter, but I have been out of town again. I called your office the day before I went away, but did not get you. I wanted to tell you first of all, that Pat. would not take any thing from Mr. Manley. He offered him the \$5.00 that day but he would not take it. I do feel under those circumstances I should buy he and Boshen both a couple nice ties or something. What do you think? Thanks for taking care of Mr. Winer, he was certainly a big help to our cause.

Now about news, I would certainly like to have a little something in the papers now and then, it is really terrible that we don't have. I have some of the fans stopping me every day asking me what my plans are, and what the ballplayers are doing now etc. I guess we will have to begin to make something up. I do get a letter from Pearson now and then from Puerto Rico. I have not sent you this news because I did not think the dailies would carry this news. It consists mostly of balking averages, and news of the men. I imagine the dailies are more apt to carry news of the league. Suppose you stop by the first day you have a minuet in the morning on your way to the office, if you don't get here I will take a chance and try to catch you in the office the next time I come down town. I am sure the next league meeting will be a meeting of the two leagues in Chicago, but it cannot be arranged until the schedules are all released.

We will plan to get together early next week at the latest.

Very Truly Yours
